

CSci 2113 - Lecture 8: Debate Practice

Prof. T. Wood

Fall 2016

Team Members and Roles:

Architect: Draw a UML diagram for your classes. How will the classes interact?

CSci 2113 - Lecture 8: Debate Practice

Prof. T. Wood

Fall 2016

Data I/O: Write a pseudo code algorithm to determine which speaker said each line of text. Be sure your algorithm works for this simple (fake) debate text.

HOLT: Hello, what are your names?

TRUMP: My name is Donald J. Trump.

I am the candidate for the republican party.

CLINTON: I am Hillary Clinton. I am
the candidate for the democratic party.

HOLT: What do you want to talk about today?

TRUMP: I want to build a wall.

CLINTON: Not email servers.
